

Chibwe Musendeka

247 Kalewa Rd, Ndola, Zambia | (+260) 967528035 / 777961853 | chibwemusendeka@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented and solutions-driven Software Engineer with hands-on experience in software development, IT support, and digital transformation. Ability to deliver high-quality code and scalable solutions in fast-paced environments. Experienced in supporting enterprise systems, troubleshooting complex technical issues, and collaborating across teams to meet business goals. Adept at remote work, Agile development, and cross-functional collaboration with a strong foundation in database management, web development, and cloud technology

EDUCATION

Zambia University College of Technology	Ndola
<i>Bachelor of Software Engineering</i>	<i>Graduation Date: Oct 2024</i>
St Johns Convent Secondary School	Kitwe
<i>"O" Levels</i>	<i>Graduation Date: Nov 2017</i>

WORK EXPERIENCE

Reeluka Investments LTD	Ndola
<i>Quality Assurance and IT Support Specialist</i>	<i>Sep 2025 - Present</i>
- Oversee the quality assurance and stability of enterprise resource planning (ERP) systems, ensuring smooth functionality across HR, Payroll, Finance, Procurement, and CRM modules. - Design, execute, and document structured test cases and scenarios to validate integrated workflows and ensure business processes meet functional and technical requirements. - Track, analyze, and escalate defects using structured testing tools, collaborating closely with development and implementation teams to drive timely resolutions. - Support User Acceptance Testing (UAT) by coordinating sessions, configuring test data, and verifying the accuracy of business reports and dashboards. - Provide first-line technical support post-implementation, troubleshooting user issues, monitoring system performance, and coordinating with technical teams for patch testing and change validation. - Maintain comprehensive documentation of system updates, bug reports, and support logs, ensuring traceability and compliance with company policies. - Apply SQL and data validation skills to verify data integrity and optimize reporting accuracy. - Contribute to continuous improvement by suggesting workflow enhancements, automating repetitive test processes, and ensuring high-quality service delivery to end-users.	
National Prosecution Authority	Lusaka
<i>IT Technician Intern</i>	<i>Aug 2025 - Aug 2025</i>
- Provided first-line IT support for hardware and software issues while troubleshooting complex network connectivity problems, ensuring minimal downtime and optimal system performance across the organization. - Developing custom in-house applications on self-hosted Linux servers, managing the complete development lifecycle from requirements gathering to maintenance while ensuring data security and system reliability. - Monitored organizational website performance through manual checks, maintaining 99%+ uptime while implementing security scans, performance optimization, and coordinating with development teams to enhance user experience.	
TechSpotDev	Remote
<i>Software Developer (Part-Time)</i>	<i>Jun 2025 - Jul 2025</i>
- Contracted to deliver high-quality software development services remotely, aligning with U.S. Eastern Time Zone (EST) working hours to maintain smooth cross-border collaboration. - Tasked with executing full-cycle software development assignments based on client specifications, with deliverables reviewed and assigned on a daily and weekly basis.	

- Developed and maintained confidential software projects while adhering strictly to NDAs and intellectual property agreements, ensuring all code and project details remained proprietary to the client.
- Maintained professional representation during client engagements, including virtual meetings and potential third-party interviews, in compliance with contract terms.
- Demonstrated strong time management and communication skills by promptly responding to client messages, proactively resolving challenges, and ensuring all tasks met agreed deadlines and quality expectations.
- Operated within bi-weekly payment cycles, delivering consistent results and adapting to a dynamic work environment requiring discretion, adaptability, and cultural sensitivity.

Daproim Africa (PACRA)

Lusaka

Digitization Assistant

Jan 2025 - May 2025

- Digitized and indexed physical records with high accuracy, ensuring adherence to quality and organizational standards.
- Performed quality control checks on scanned files, resolving minor issues and escalating complex problems to supervisors.
- Collaborated with team members to maintain an efficient workflow across preparation, scanning, indexing, and quality assurance stages.

Nilandi Web Services

Lusaka (Hybrid)

Web Developer Intern

Jul 2024 - Oct 2024

- Played an active role in the full web development lifecycle, contributing to both front-end and back-end development across multiple client projects.
- Designed, maintained, and enhanced websites using HTML, CSS, and WordPress, with hands-on experience in customising themes, plugins, and content management systems to align with client needs.
- Implemented new features to optimise user experience, improve responsiveness, and increase accessibility, directly contributing to higher user engagement and satisfaction.
- Collaborated closely with cross-functional teams, including design and marketing to ensure cohesive branding, smooth UX flows, and timely project delivery.
- Demonstrated strong problem-solving skills by identifying and resolving complex bugs and performance issues across different browsers and platforms.
- Assisted in website maintenance tasks such as updates, backups, and security monitoring, helping clients maintain stable, secure, and high-performing digital platforms.
- Showcased adaptability and a continuous learning mindset by taking on new frameworks, tools, and tasks beyond initial scope, consistently meeting tight deadlines and evolving project requirements.

Zambia Electricity Supply Corporation Limited

Kitwe

IT Support Technician Intern

Feb 2024 - May 2024

- Served as the first point of contact for end-users seeking IT assistance, responding to support requests primarily via internal extension lines and in-person interactions within the office premises.
- Provided timely and effective troubleshooting for software-related issues, particularly those affecting Business Information Systems (BIS) and other critical applications, thereby ensuring business continuity.
- Diagnosed and resolved issues related to email systems, application errors, and general software malfunctions, escalating complex cases when necessary and, in rare instances, performing OS reinstallation as a last resort.
- Offered step-by-step guidance to end-users, empowering them to resolve basic IT issues and enhancing their overall confidence in handling everyday tech challenges.
- Investigated and resolved network connectivity problems and device recognition errors, contributing to a more stable and efficient IT environment.
- Installed, configured, and maintained hardware components including desktops, laptops, printers, and peripheral devices, ensuring full compliance with internal IT policies and licensing regulations.
- Supported software installation and updates, ensuring that applications were up-to-date and properly licensed in alignment with organisational standards.

PROJECT EXPERIENCE

Next Transit

Ndola

Developer

- Developed a Smart Bus Booking System integrating mobile apps and real-time features, achieving 90% accuracy in contactless ticketing.
- Implemented secure payment gateways, enabling over 95% of users to complete transactions seamlessly via mobile money and bank card options.
- Optimised user experience with accessible route information and seamless booking workflows.

MWASUE Investment LTD Website

Lusaka

Full-Stack Web Developer

- <https://mwasue.netlify.app/>
- Developed a complete responsive website for MWASUE Investment Limited, a catering company, using React 19, Vite, and modern web technologies, resulting in enhanced digital presence for the Copperbelt region business.
- Implemented advanced UI/UX features, including Framer Motion animations, responsive Tailwind CSS design, and React Router navigation, creating an engaging user experience across all device types.
- Integrated EmailJS for seamless contact form functionality and React Hook Form for robust form validation, enabling direct client communication and quote requests.
- Built a comprehensive company showcase featuring team profiles, service portfolios, interactive contact methods, and WhatsApp integration, supporting the company's goal of expanding its 70+ event client base.
- Utilised modern development tools including Lucide React icons, ESLint for code quality, and Vite build optimisation, ensuring fast loading times and a maintainable codebase.
- Delivered full project lifecycle from planning to deployment, working closely with the company founder to align technical implementation with business objectives and brand identity.

WorkCom Connect(WCFB ERP System)

QA & IT Support Specialist

Sep 2025 - Present

- An integrated enterprise platform designed to streamline HR, Payroll, Finance, Procurement, and CRM operations.
